

Product description

Lady Effects Stucco Antica is a water based, coloured paste which creates attractive marble effects on interiors. Lady Effects Stucco Antica produces a finish which is a blend of opulence as well as antiquity thereby offering numerous colourful solutions for interior decoration.

Recommended use

Ideal for design oriented interiors.

Highly recommended for prestigious interiors such as hotels, restaurants, luxurious villas, palaces, mosques, museums, art galleries, foyers, lobbies etc.

Could be applied on cement plaster, concrete, gypsum board, MDF and plywood.

Technical information

Theoretical spreading rate: 0.7-1 kg/sq.m/coat

Limited colour range on Jotun Multicolor machine that could be used on different base coat colours.

Solids (vol%): 49±2 according to the ISO 3233:1998 (E)

Preparation and application

The surface must be dry, clean and completely free from all loose materials in order to apply a coat of Jotun wall primer.

Lady Effects Stucco Antica is to be used as a top coat on a background of 2 coats of Fenomastic Emulsion Matt paint.

The temperature of the substrate should be min. 10°C and min. 3°C above the dew point of the air, temperature and relative humidity measured in the vicinity of the substrate.

Recommended tools: Spatula and Trowel

Lady Effects Stucco Antica base must be mixed well with the Stucco Antica Colourant before use and it can be diluted with water.

Typical Paint System

On cement plaster, concrete, gypsum board, MDF, plywood etc:

PVA primer/Fenomastic emulsion primer	1 coat
Stucco	2 coats
Fenomastic Emulsion Matt	2 coats
Lady Effects Stucco Antica	3-4 coats

Other systems may be specified, depending on area of use.

Other effects could be done with Lady Effects Stucco Antica, please check Jotun Techniques brochure.

Effects

STUCCO ANTICA

EFFECT: LADY EFFECTS STUCCO ANTICA | TECHNIQUE: ATIAF

Lady Effects Stucco Antica Colour

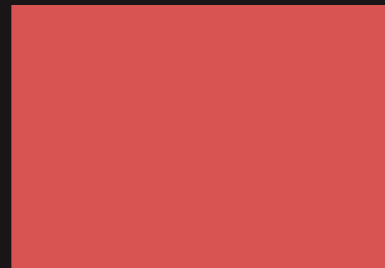

To get the effect shown in the samples below, apply Lady Effects Stucco Antica onto small areas by using a spatula, smoothen the paste to obtain a truly leveled surface. A gloss can be achieved by rubbing the product with a trowel when wet or dry. Repeat the same process of application at least three to four times to obtain a very smooth, marble like appearance. To increase the gloss further and to prevent water absorption and increase washability, one coat of special wax can be applied with cotton wool followed by polishing preferably seven days after Lady Effects Stucco Antica application. It is highly recommended that Lady Effects Stucco Antica be applied by a skilled and professional painter. **A Multicolor machine can provide up to 130 colours of Lady Effects Stucco Antica.**
